CHICAGO WILL FAIL

CHARLES T. YERKES PREDICTS DISASTROUS RESULTS TO THE EFFORT TO MANAGE STREET RAILWAYS BY THE CITY—SAYS THE PLAN OF MUNICIPAL OWNERSHIP WILL CERTAINLY RESULT IN COLLAPSE.

CHICAGO, April 11.—The Daily Newthing. Some of them were utterly impossible. These we sent back to their places. We got the best that were to be obtained by the ordinary competitive principle.

"Chicago can no more run street railways successfully than you can take wings tomorrow and fly to heaven," said Charles T. Yerkes this morning.

"Mark you," he continued, "I do not wish to be understood as talking aggressively of Chicago. I have a great deal of sympathy for the people of that city. Some of them are going to lose money. They are going to make outsiders lose money also."

"Judge Dunne is a man of much intelligence, but what does he know of street railway? If he were infinitely more able than he is he could not do what he has set himself to do. Municipalities cannot manage great, complex affairs with success. The only place in Europe where anything important in this line has been accomplished is Glasgow, and the private owners could have done much better there. Young, whom I took away from the management of the Glasgow street railways, was handicapped in his work there although he did his best to minimize political interference."

"Moreover, the politicians of Glasgow, while ignorant, are honest. Politicians generally in Europe are comparatively honest, whereas the politicians of Chicago are the worst in the civilized world. I hear this morning that Judge Dunne will take over the street railway properties and that it is only a question of price."

"I dwell for a moment on the prospect of 'Hinky Dink,' of 'Bathhouse John' dictating or influencing the appointment of the man who run the street railways. Think of such people having a hand in the purchase of vast quantities of material and in decisions relative to the construction and operation of power-houses. I know the Chicago council fairly well. I cannot think of many of its members whom I should trust to buy materials for me. Chicago's street car properties run by Chicago municipal wirepullers—the outlook is dark indeed."

"Chicago, however, needs the lesson and could not get it in any other way."

CHARLES T. YERKES

"Therefore, I presume that if Chicago is willing to pay what the owners are willing to accept the deal will be effected. Then Chicago's troubles will begin."

"Every great business must be run scientifically if it is to be run long or at all. How can Chicago run railways scientifically? Under the old management, by close figuring, we developed and sustained properties that had a margin of profit. Our successors lost that margin and something besides. Chicago's loss will be still greater and the city will run heavily in debt. Will the poor man suffer? No; because the poor man does not pay taxes. Men with property pay taxes. These will suffer."

"Chicago is now running its water-works at a cost three times greater than would be that of private management. Chicago's street cars and power-houses will be manned by petty politicians. The number of employees will be so great that they and the men whom they can influence probably will control the elections."

"They will likely hold the balance of power. Then, think of manning the power-houses with such men. I used to be compelled to employ a few such persons in order to prevent certain politicians from having it in for me, as they say."

"These employees were invariably unsatisfactory. They came and went at short intervals, for they were sure in a little while to be caught doing something."

CHEATING FAME.

Mr. Rockefeller and Rev. Washington Gladden are still doing what they can to make each other famous.

The value of a trade mark can be readily seen when one has an article of merit. The word "Rainier" is a guarantee of excellence when applied to the products of the Seattle Brewing & Malting Co. Rainier Beer is unsurpassed.

DR. DEIMEL UNDERWEAR FOR MEN

It is now a little more than seven years since we undertook the sale of his underwear, and with the experience resulting therefrom we do not hesitate to give it our unqualified commendation. The wearing qualities and finish have recently been much improved, and we believe it is today the most comfortable, healthful and altogether satisfactory underwear that has yet been produced. Many of our most intelligent customers are enthusiastic regarding it.

While ideal for every season, it is especially delightful for summer wear, and we cordially invite a trial by those who are not familiar with its merits.
